Discover Bank recently donated funds to KSI, a not for profit vocational rehabilitation organization which serves the residents of Kent and Sussex Counties Delaware, so that the organization replace its forklift, a piece of equipment central to its daily operations and contract work. Discover has also supported KSI in the past.

The mission of KSI is to assist people with disabilities in the pursuit of their potential in employment and meaningful participation in their communities.

Approximately 290 individuals receive services per year. Program participants are referred to KSI by agencies such as the Division of Developmental Disabilities Services (DDDS), the Division of Vocational Rehabilitation (DVR), the Division for the Visually Impaired (DVI), Veterans Administration (VA), and various school districts. Services provided include transportation, vocational evaluation, work adjustment training, facility based work services, community based work crews, supported employment, and competitive placement.

Originally known as the Golden Opportunity Center, Inc., KSI was founded in 1962 with a grant from Delaware Foundation Reaching Citizens with intellectual disABILITIES (DFRC). What began in a small facility in Camden, just south of Dover, Delaware grew over the next decade to include four satellite facilities. In 1985, programs in Woodside, Bridgeville, Dover and Milford were consolidated and moved to KSI's current location, a 77,000 sq. ft. plant, located at 301 N. Rehoboth Blvd, Milford, Delaware.

KSI is a full member agency of the United Way of Delaware and since 1980 has been accredited by the Commission for Accreditation Rehabilitation Facilities (CARF).
